Report on the Guest Lecture "Advancement in Composite Materials for Mechanical Engineering"

Name of the Course: "Advancement in Composite Materials for Mechanical Engineering"
Name of the Resource Person: Mr.KARTHIK.K
Date: 05/05/23
Time: 10 AM TO 4 PM
Name of the Activity: GUEST LECTURE
Name of the Coordinator: Mr.R.MURALI

The Guest Lecture on "Advancements in Composite Materials for Mechanical Engineering" was a lively event where students learned about the newest innovations in the field. It was well-organized and aimed to teach participants the important things they need to know about composite materials, which are always changing. In the seminar, students took part in workshops, listened to experts, and had discussions. They learned about the different aspects of making composite materials, like Manufacturing Processes, Properties and Performance, and Applications with Advancements. The seminar also talked about the problems people face when using composite materials in mechanical engineering and gave practical solutions. Real-life examples were shared to show how composite materials are making a big difference in different industries. 45 students benefited in the program
