Seminar Report

Name of program : Recent Trends in Electronics design - Miniaturized Electronics
Name of Resource person : Mr.E.Sundaramurthy, Chief Engineer, JNS Engineering
Date : 27.01.22
Time : 10.00 AM to 1.00 PM
No. of Beneficiary : 37
Department : Department of EEE

ABOUT THE SEMINAR:

On January 27, 2022, Mr. E. Sundaramurthy, Chief Engineer at JNS Engineering, led an insightful seminar on Recent Trends in Electronics design - Miniaturized Electronics. The seminar aimed to miniaturized electronics has been revolutionizing various industries, from consumer electronics to healthcare and beyond. A comprehensive overview of recent trends in miniaturized electronics design and spark engaging discussions during the seminar. Particularly in the context of technological advancements and digital innovation.

Mr. Sundaramurthy commenced the seminar by providing a comprehensive overview of intellectual property rights and their significance in today's digital era. He highlighted the growing importance of protecting intellectual property assets such as patents, trademarks, copyrights, and trade secrets in an increasingly competitive and interconnected world.

The seminar highlighted the role of technology in enhancing electronics and enforcement. Mr. Sundaramurthy discussed the emergence of block chain, artificial intelligence, as innovative tools and combating infringement. Participants learned how to leverage technology processes and mitigate risks in the field of electronics.
