Activity Report on Memorandum of Understanding (MOU) for E-Waste Management

Reporting Period:

The following report outlines the activities and progress made under the Memorandum of Understanding (MOU) for E-Waste Management between Meenakshi College of Engineering and Sungantha Waste Paper Mart.

Collection Drives:

Organized multiple e-waste collection drives in collaboration with the institution. Collected [Specify Quantity] of e-waste items, including old electronics, batteries, and cables, for proper recycling and disposal.

L.C.D =23.00kg

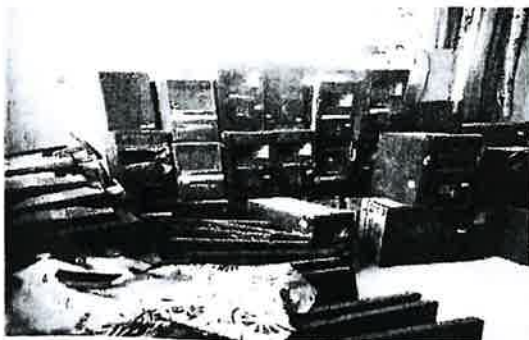

C.R.T monitor =1kg

Keyboard =74kg

Other Ewaste =127kg

Ensured compliance with relevant environmental regulations and standards governing E-waste management. Conducted regular audits and assessments to monitor adherence to legal requirements and best practices. Quantified the impact of e-waste management activities by tracking key performance indicators, including the volume of e-waste collected, recycling rates, and public participation. Analyzed data to identify areas for improvement and optimize resource allocation. Despite the progress achieved, several challenges remain, including limited public awareness, logistical constraints, and financial sustainability.

The collaborative efforts under the MOU for E-Waste Management have demonstrated tangible progress in addressing the challenges of e-waste pollution and promoting sustainable practices. By continuing to work together and engage stakeholders, we can achieve our shared goal of creating a more resilient and resource-efficient e-waste management system.
